

### **Patient Information**

Bounce Back Physical Therapy will cooperate with patients in the collection of insurance benefits for physical therapy services. In order to avoid misunderstandings, the following statements should be carefully read.

The physical therapist cannot state what services the insurance company covers or the amount. You, the patient must determine this from your insurance company or agent.

As a service to you, we will complete and submit insurance forms. This does not relieve you the patient or responsible party of your obligation to the physical therapist, nor does it imply that the bill is settled.

If your account becomes delinquent, we reserve the right to add a collection fee and submit your account to a collection agency. All collection cost will be your responsibility and this will affect your credit rating.

Should further questions arise, feel free to contact this office to ensure a complete understanding. Your cooperation will benefit both you and Bounce Back Physical Therapy.

I have read, understand and agree to the policy of this office concerning insurance and collection of fees.
