Success Story

January 17, 2003

Dear Stephanie & Charan:

Thanks so much for all your help. I purposely waited until the end of October to have my ACL reconstruction. I tried to play golf as long as I could as I figured there was no way I was going to be able to ski this season once I had my surgery. Well it is 12 weeks after my surgery and I am getting ready to go skiing!

Thanks for making my rehab. interesting, challenging, reasonably fun and most importantly - successful. You two are a great team and I wish you both continued success.

Again Many Thanks

Brent
